

Covid-19 specific Risk Assessment

**Company name: The Harwellian
Committee**

Assessment carried out by: Harwellian Management

Date of last review: 12th Oct 2020

Date of original assessment: 29th June 2020

The UK is currently experiencing a public health emergency as a result of the COVID-19 pandemic. As such, it is critical that businesses take a range of measures to keep everyone safe.

This risk assessment captures the Management Committee's analysis and decisions on how to work safely and keep our customers safe during this pandemic, ensuring as many people as possible comply with social distancing guidelines (2m, or 1m with risk mitigation where 2m is not viable, is acceptable).

This document was based on the government guidelines "Keeping workers and customers safe during COVID-19 in restaurants, pubs, bars and takeaway services" (updated 23 June 2020):

It was updated on 12th October in line with the latest 'Guidance for people who work in or run restaurants, pubs, bars, cafes or takeaways':

In addition to this Risk Assessment, the required Control measures will be captured in Lists and Notices for all those that have responsibilities.

The master copy of this Risk Assessment and the associated Action Lists will be stored on the The Harwellian GoogleDrive document store.
